PROCEDURE OBJECTIVE

This procedure provides procedural guidelines for the use of supplies and/or expendable property purchased with funds from contracts or grants. Procedures concerning the need and how to maintain records of such purchases are included in this procedure.

RATIONALE

There are no general requirements from Government agencies for reports of supplies used; however, occasionally there have been individual requests for providing such information. Accordingly, it is considered to be good business to establish minimum requirements at UT Arlington.

SCOPE

All University departments that use supplies and/or expendable property purchased with funds from contracts or grants.
