PROCEDURE OBJECTIVE

Procedure BF-T-PR2 provides procedural guidelines for international travel in accordance with applicable laws and rules. International travel is travel to any country outside of the United States and U.S. territories and possessions. This procedure details how to request approval for international travel, how to convert and interpret travel receipts and an explanation of International SOS, the vendor contracted by the UT System to provide international assistant services.

RATIONALE

Rules and policies governing the approval and definition of international travel come from a variety of sources including the State of Texas Travel Regulations Act (Chapter 660 of the Texas Government Code) and the Board of Regents’ Rules and Regulations. These rules and policies define international travel as travel to, in, or from a destination that is neither in the United States, nor a possession of the United States. To assist university employees with calls for help, advice and medical response when traveling internationally, this procedure explains the organization that the UT System has contracted with to provide international assistant services to its employees and students when traveling on university business.
SCOPE

All UTA employees, students, and official guests/volunteers participating in University-sponsored international travel.

PROCEDURES

Section I. Pre-Travel Authorization using State Appropriated Funds

If using state appropriated funds and traveling to foreign countries other than Canada, Mexico, or U.S. possessions, the Travel Authorization must be pre-approved by a person authorized by the President of the University to act in the official capacity of approving international travel. Faculty should contact the office of the Provost and Vice President for Academic Affairs, and staff should contact the Vice President for Human Resources.

Travel Authorization Requirement:
- Documentation of an approved pre-travel authorization must be attached to the UTShare Travel Authorization.
Section II. Travel Authorization using Local Funds

If using local funds for international travel, a fully approved Travel Authorization is required before a trip occurs, whether or not there is a cost to the University. Please see Procedure BF-T-PR1, for complete information on Travel Authorizations.

Section III. Approval for Travel to areas of High Risk

A. University-sponsored travel to areas of High Risk must be approved by the UTA International Oversight Committee (IOC) prior to travel. This includes travel to locations where:

1. The U.S. State Department has issued the following Travel Advisories:
   a. Level 4: Do not travel
   b. Level 3: Reconsider travel (note: this includes numerical advisory levels for sub-regions within a county; e.g., states in Mexico)

2. The Center for Disease Control and Prevention (CDC) has issued a Warning Level 3: Avoid Nonessential Travel Health Notice, or

3. The IOC has deemed significant health, safety, or security risks are present. This could include:
   a. Any region with a U.S. State Department Travel Advisory recommendation of “Do Not Travel” or “Reconsider Travel” within a country rated as Travel Advisory Level 2: Exercise increased caution, or Level 1: Exercise normal precautions.

The countries on the current travel advisory list may be found on the U.S. Department of State website. Countries on the travel warning list may include Canada or the United Mexican States (Mexico). Additionally, the Level 3 updates for travelers may be found on the Centers for Disease Control and Prevention. Requests for exemptions for travel to countries listed on either travel websites should be directed to the UTA IOC chairman at horn@uta.edu.

If the U.S. Department of State or the Centers for Disease Control and Prevention issues a travel advisory, any program not started, and any participant or employee planned travel that has not occurred, is automatically suspended pending review by the UTA IOC. Programs or travel in progress when the warning is issued will be evaluated by the UTA IOC to determine whether the threat is imminent, and personnel and students should be recalled.

Travel Authorization Requirement:
- Documentation with IOC approval must be attached to the UTShare Travel Authorization.

Section IV. International SOS Registration

The UT System Office of Risk Management has a contract with International SOS (ISOS). Registration with ISOS is required prior to travel for faculty, staff, students and official guests/volunteers traveling internationally to conduct university business as a representative of University, such as participation in research, conferences, meetings and teaching endeavors. This does include Canada and the United Mexican States. ISOS automatically receives traveler
information from our travel agencies, Corporate Travel Planners (CTP) and Anthony Travel, Inc (ATI). International SOS will send a membership card, security and medical alerts, and country guides to the traveler as soon as the trip is booked. Any traveler who uses CTP and/or ATI will be automatically registered with International SOS and can be tracked and easily located while traveling. If a traveler has obtained permission not to use CTP or ATI for booking travel, the traveler must still register with International SOS by accessing the UT System portal at [http://www.internationalsos.com](http://www.internationalsos.com) and using the UT System membership number 11BSGC000037 to complete a registration.

International SOS is a comprehensive, 24-hour medical response organization that provides international assistance services to leading multinational corporations, insurers, and financial institutions, as well as governmental and non-governmental organizations. The backbone of the worldwide ISOS servicing infrastructure consists of multilingual Alarm Centers on duty 24 hours a day, 365 days a year. E. Coverage for Travelers other than Faculty, Staff, or Students

We recommend that all travel companions accompanying a covered individual on a trip abroad purchase an individual ISOS membership. This will ensure that travel companions have access to these services in case they experience a medical or security emergency. A travel companion can obtain a quote for an individual membership at the website below. By entering the UT System's membership number, under the preferred pricing field, travel companions can receive a 20% discount off the membership cost. This discount is available to employees and their families for leisure travel as well.

The International SOS website, membership number 11BSGC000037, has valuable travel, security and medical information for the specific destinations and is an excellent resource for pre-trip planning.
